

Electrosurgical Generators

HV-300E Electrosurgical Generator

Versatility in Office-Based Electrosurgery

For general electrosurgery needs in the office, Clinic, or emergency room, the electrosurgical generator provides exceptional performance, reliability, and safety benefits in a compact, easy to use unit.

Ease

Ease and quick to set up; compact and light

Saves time with automatic access to previously used power settings and modes

Provides precise surgical effect with power control dials

Flexibility

Performs most common office-based electrosurgical procedures

Includes both monopolar and bipolar outputs

Reliability

Manufactured to the highest standards of quality in electrosurgical technology
Ensures consistent clinical performance over a variety of procedures

Safety

Increased patient safety with a return electrode contact quality monitoring system (REM). The REM system continually monitors patient impedance levels and deactivates the generator if a fault in the patient/return electrode contact is detected

Breathwell Medicare India (P) Ltd.
IMPORTERS AND EXPORTERS OF MEDICAL EQUIPMENTS

Unique Features of the HV-300E Electrosurgical Generator

Technical Specifications

Output Frequency

540KHz

Line Voltage

110/220V~

Line Frequency

50/60Hz

Weight and dimensions

Height: 14cm

Width: 26cm

Length: 35cm

Weight: < 7 kg

- Improved performance at lower power settings minimizes the risk of tissue damage and neuromuscular stimulation
- Easy to use, cost effective system when performance is required and price is of equal concern
- Two cut modes offer surgeons a variety of choices
Pure cut for a clean, precise cut
Blend cut for cutting with hemostasis
- One coagulation mode
Fulgurate for coagulating tissue areas with superficial of necrosis
- Bipolar mode
Standard mode utilizes low voltage to prevent sparking

Output Characteristics

Mode		Maximum P-P Voltage	Rated Load(ohms)	Maximun Power(Watts)	Crest Factor(Tpical)
Monopolar Cut	Pure	550	300	100	1.5
	Blend	630	300	80	2.0
Monopolar Coag	Fulgurate	1000	300	60	3.6
Bipolar Coag	Standard	330	100	50	1.8
