MEDINEB[®] PRO Nebulizer

Description

This aerosoltherapy unit has the modern and convenient design of a compact and lightweight device for domestic use, that does not need maintenance.

It is built with top quality shock-resistant ABS resins.

All electrical components are certified (IMQ, VDE, UL, CSA, etc.). The unit is manufactured in compliance with IEC 601-1 Safety Standards.

The piston electrocompressor, equipped with safety thermal protector, ensures high performance and long life and is available at the following voltages: 115V 60Hz - 220V 50Hz - 240V 50Hz; in the dual voltage 115/12V - 220/12V - 240/12V version and at 12V DC for use in caravans, boats, cars, etc.

The unit is also equipped with a professional air filter and, upon request, where applicable, with flow regulator.

Accessories

The nebulizer's accessories are made of "PYREX" glass or polycarbonate with high nebulization performance, autoclavable except for mask, tube, rubber hose and nebulizer cap, which can be sterilized by means of a chemical disinfectant.

Warranty

The nebulizer is covered by a 12-month warranty (except for the accessories), with transport costs for repair at customers charge.

Other forms of warranty can be agreed

directly with Flaem Nuova.

Due to the excellent reliability and quality of our nebulizers, if they are used strictly according to the instructions for use, breakdowns and anomalies are unlikely to occur.

FLAEM NUOVA reserves the right to make technical and functional changes to this product without prior notice.

Technical features

Operating pressure	:0.95 bar
Max pressure	:2.5 bar
Air output	:12 LPM
Dimensions	:27x20x10,5 cm.
Weight	:2.2 Kg.
Average noise (at 50 cm)	:60 dB
Short time operation	:max 40 minutes
Fuse	:T 2A 250V for 220V :T 3A 250V or T 5A 250V for 115V
